

## ***Editorial***

International Journal of Engineering and Science Education, is a parent journal in Seitejournals. The journal is an online publication on current developments in Engineering and Science Education globally. It publishes good articles-well research theoretical and empirical papers which address current issues in Science Education such as Teaching and Learning, Educational Technology, Curriculum Development, Evaluation and Reforms, as well as Instructional Materials Production strategies and management.

This maiden volume might not cover much but we promised the reading public that our subsequent volumes shall exhaustively contains articles that would examined Innovations in Science Education Curriculum and Instructional Materials Development, Best Practices in Science Education Curriculum Development, Best Practices in Science Instructional Materials Development, Historical Perspectives in Science Education Curriculum Development, Innovations in Science Education Curriculum Development Regarding Health and other Educational Issues, Innovations in Curriculum Development in STEM, Global Innovation Issues in Curriculum Development Across All Subject Areas. It is our hope that our subsequent publications would be very useful to teachers, students, researchers and policy makers in education.

Prospective contributors to SEITEJOURNALS are advised to write their research papers under these headings: Introduction, Method, Result, Discussion, Conclusion, Recommendations and References. Opinion papers should be organized under appropriate headings. All tables and figures

should be properly captioned. For referencing, contributors are advised to use the American Psychological Association (APA) format. Papers should be processed in Microsoft Word, A-4 paper, double line spacing and must not exceed 14 pages.

The Editorial Board of Seitejournals acknowledges the efforts of contributors in the area of Science Education. We hope to have many more well-researched papers for our next edition which would be released soon.
